BioNutraTech, Inc.
Site Assessment for Soil Remediation using VB997® Soil Hydrocarbon Contamination

Date:

Company:

Address:

Contact:

Phone:

Fax:

Facility type:

Site:

Primary contaminant(s):

Other Contaminant(s):

Volume of material contaminated:

Initial level of contamination: mg/l (ppm):

EPA test method (418, 8020, etc.):

Plate count (cfu/mg):

Temperature:

pH:

Laboratory submitting initial testing:

Regulatory agencies involved:

Remediation process type: In-situ Ex-situ

Brief description of application methodology:

Comments:
